

APPLICATION FORM 2010 'op_LOCATIE'

Thank you for letting us know that you are interested in id11's artist-in-residence program **HET TIJDELIJK VERBLIJF**

Foundation id11 has one quest room available for their artist-in-residence program **HET TIJDELIJK VERBLIJF** for (inter)national artists to stay. The residence-quest room is available for one artist or a duo's (visual-, music-, performing arts, etc.) from other cities and abroad who like to work and live in Delft for 1 month. The house is in a good state, easy to reach by public transport and in walking distance from the shopping centre. A separated space is available as working space. The space is located in a new apartmentbuilding and part of Broedplaats Poptahof. id11 started in 2010 the project **op_LOCATIE**. **op_LOCATIE** involves **HET TIJDELIJK VERBLIJF** and the working and exhibition space for the quest artists. Artists will be able to work about three weeks on their project and present their work the last two weekends of the month. The space is available for artists to realize site specific projects. We expected from the artist that they search in their work for a relation with the neighborhood, the location and/or the space.

The artist-in-residence is; based on self catering basis, is basic furnished, does not include cleaning staff and laundry service (you should do it your self), supplies no material or equipment. id11 provides; a free living and working space, monthly presentations, publicity and a small working budget.

Artists can apply by sending/ presenting a project plan together with recent documentation material.

Please send information mentioned below by e-mail to info@id11.nl

- a short version of your resume (or a link to your website)
- recent documentation material (not more then 5 pictures or a link to your website)
- a short written project proposal (not more then one A4)
- this application form (next page)

Foundation id11 aspires to create artist residencies and presentation spaces for artists in Delft, The Netherlands, where experimentation can thrive.
